Resilient Flooring KANO

Specifications	Resilient Flooring Eco - Line
Features	Waterproof / Anti-slip / Wear-resistant / Fire-resistant / Noise reduction
Advantages	Long-term use / Easy installation / Cost saving / Eco-friendly
Size	1220 mm x 150 mm x 4 mm
Wear layer	0.4 mm (Domestic and general trafficked Commercial - Class 32)
Applications	Residential / Office / Hotel / Restaurant / Shopping Mall / Museum / Gym...
Surface treatment	Matt finish with UV coating
Packaging (per pack)	12 planks / 2.196 m ² / 17.5 kg
Packaging (per pallet)	90 packs / 197.64 m ² / 1595 kg
Installation method	Välinge Click Lock system
Warranty	Residential: Up to 15 years – Commercial: Up to 5 years

Test Items	Testing Methods (Standards)	Test Results
Abrasion resistance	EN 13329: 2016 (≥ 2.000 rounds)	3.100
Squareness of plank	EN 13329: 2016 (≤ 0.20 mm)	0.12
Straightness of plank	EN 13329: 2016 (≤ 0.03mm/m)	0.18
Flatness of plank	EN 13329: 2016 (Width: ≤0.15%) EN 13329: 2016 (Length: ≤0.50%)	0.08 0.21
Openings between planks	EN 13329: 2016 (≤ 0.15 mm)	0.05
Height difference between planks	EN 13329: 2016 (≤ 0.10 mm)	0.08
Swelling in thickness	EN 13329: 2016 (≤ 20%)	0.12
Surface soundness	EN 13329: 2016 (≥ 1.0 MPa)	1.72
Dimensional variations for changes in relative humidity	EN 13329: 2016 (≤ 0.90 mm)	0.08
Formaldehyde content	TCVN 7756-12: 2007 (≤0.1mg/100g)	Not detected
30s exposure time to flaming:	ISO 11925-5: 2010	
Ignitability occurs		Not detected
Presence of flaming droplets		Not detected

KANO

Resilient Flooring ECO - Line

Luxury Resilient Flooring – **KANO** is researched and developed by leading experts in the flooring material technology with the following criteria: long life cycle, natural wooden color, diversified designs and most importantly environmental friendly. Our product is made from virgin Poly Vinyl Chloride (PVC) and Nano stone powder, so it is 100% waterproof and water-repellent. The installation is easy and convenient thanks to the Belgian click system technology.

The latest "**Emboss-In-Register**" technology makes flooring planks natural, elegant and attractive. In addition, the flooring is fire resistant, anti-abrasive (**AC4**) and anti-scratch. Especially the vinyl layer along with **UV** coating surface as they keep the flooring permanently colorful. Interestingly, **KANO** Floor does not get bent at normal temperatures from -10 to 50 degrees Celsius and is perfectly suited for high-traffic areas such as commercial centers, supermarkets, restaurants, hotels, gyms, or wet places such as baths, kitchens ...
